

FLOOR GRILLE COVERS

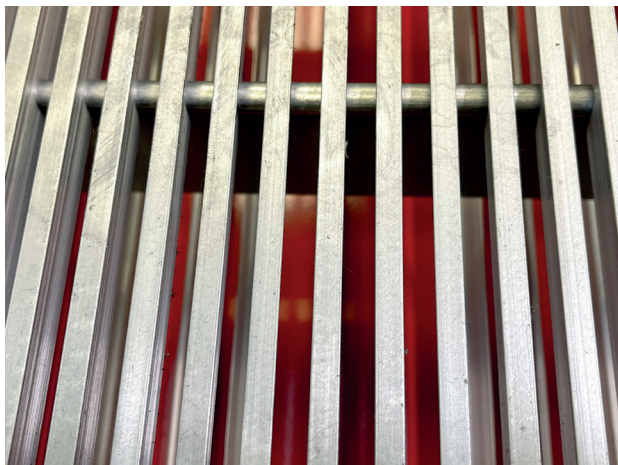

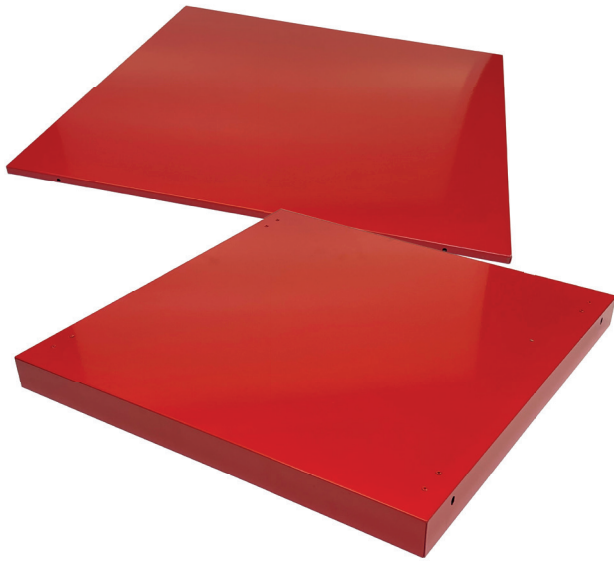

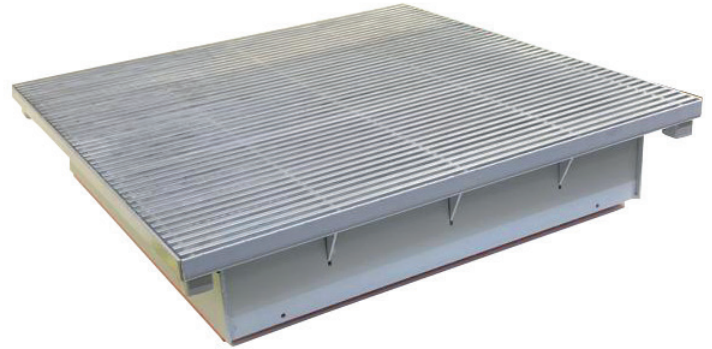

BLANKING FOR FLOOR GRILLES

PRODUCT OVERVIEW

Application

EDP Floor Grille Covers (FGC) are a bespoke cost effective solution for sealing unused floor grilles in order to improve airflow management and optimise Data Centre cooling efficiency.

Supplied with a bright red finish, for easy identification, FGCs can be removed when additional cooling capacity is required.

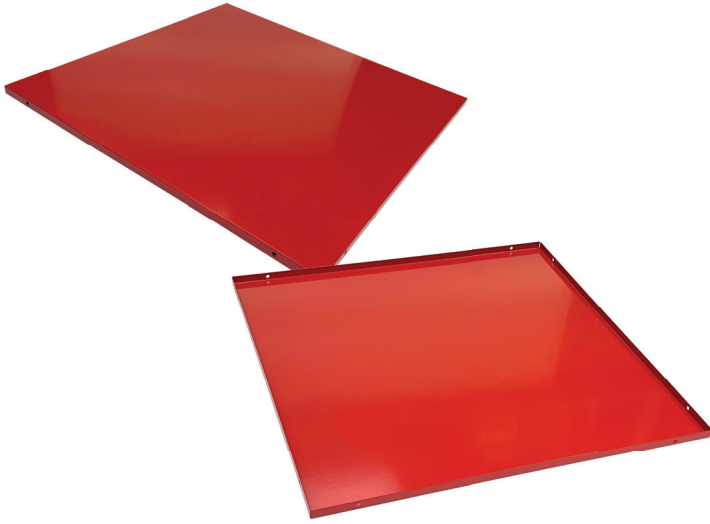

Features & Benefits

- Improves airflow management.
- Cooling optimisation and efficiency.
- Mitigates against over-provision of cooled air.
- Cost-effective.
- Easy to identify.
- Available to suit any floor grille type.
- Available in custom colours.
- Designed & manufactured by EDP in the UK & USA.
- Distributed globally.
