

### **EZIBLANK® MODULAR WALL**

STACKABLE RACK SUBSTITUTE PANEL

### **PRODUCT OVERVIEW**

### **Application**

A cost effective way to maintain important airflow dynamics within a Data Centre.

These EziBlank® Modular Wall replacement racks are assembled in minutes, creating a stable rack sized air flow barrier, that can be positioned anywhere and re-used again and again. The modular design transforms our highly acclaimed EziBlank® Wall to a 2-piece, stackable design, transporting and storing on site has never been easier. Each modular can cover up to 23U or 46U when stacked together.

Assembled from flat sheet, EZIBLANK® Modular Wall panels build quickly into a strong, stable triangular structure.

Easily construct a full height rack in seconds.

#### **Features**

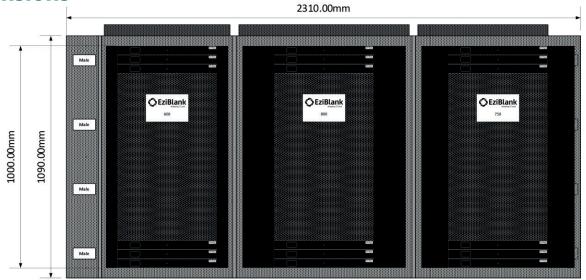

- A stable, stackable rack-sized airflow barrier that can be positioned anywhere.
- Quick to assemble from flat sheet into strong triangular structure.
- Suits various rack spaces up to 46RU high and 600 / 750 / 800mm wide.
- Prevents hot air recirculation in a hot or cold containment aisle.
- 3 Sizes in one. Simply "rotate" to obtain correct rack width.

# **Specifications**

Physical	
Dimensions:	2310 x 1090 (mm) x 2
Shipping Dimensions: Weight:	1100 x 900 x 50 (mm) 7Kg per pack of 2
Material:	Flame retardant , impact resistant, water resistant, twin walled polypropylene sheet - 6mm
Colour:	Black
Standards:	Flame retardant to UL V-2 / UL94 Comply with AS/NZS 1530.3—1999 Methods for fire tests on building materials, components and structures Simultaneous determination of ignitability, flame propagation, heat release and smoke release.
